CS50 Tips

- Watch (or at least skim) the lectures
- Come to section (and try to read the pset first)
- CS50 Discuss exists (but you can also email me)
- Check out my section website for slides, examples, resources

How I Grade

- scope * (3 * correctness + 2 * design + 1 * style)
- Please get all of the scope points
- I check correctness with check50
- Your code should pass style50
- Design is more subjective (but don't worry too much at first)

Integrity

- Can you look at my code? (YES)
- Can I look at your code? (NO)
- Regret

Linux Tips

- Tab-completion
- RTFM (man pages)
- Run rm -rf / if you're low on disk space

week3 Topics

- arrays
- ascii redux
- functions
- command-line args
- pset2
